

Multi Function Night Light

100,000 hour LED
(light globe) life span

Rechargeable torch

Power failure light backup

Plugs directly into
240 volt wall outlet

Night light

Increase safety around the home with our helpful Multi Function Night Light. Easy to use, water resistant and no need for batteries.

Automatic night light

Plug the unit into any power outlet and the LED night light automatically illuminates at night.

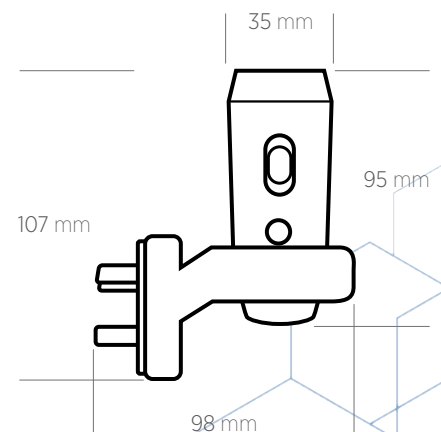

Power failure light backup

In the event of a power failure or when the torch is removed from the base, the bright LED torch automatically activates.

Rechargeable torch

Super bright long life white LED with 5 hours shine time (when fully charged) and featuring a 30 day standby life.

Magnetic induction technology means no contacts inside base – charger simply plugs into any AC outlet and you can drop the torch in to charge.
