Body Washer and Back Washer

Beauty Body Washer or Beauty Back Washer are designed to make it easy to reach and clean the body. The wash cloths do not absorb water which make the products light and balanced even when wet.

The handles are oval and have a surface which enables a secure grip. The wash cloths are replaceable.

Hair Washer

Beauty Hair Washer substitutes the fingers to apply shampoo and massage the scalp. The shaft and handle are of the same design as the body washer, making it easier to reach the head without strain on the hands, shoulders or arms.

Beauty Comb and Beauty Hairbrush come in two lengths. The shorter version is recommended when the user can reach up to the ear. The longer version is suitable for users who can only reach to the shoulder. Both the comb and brush are curved to follow the shape of the head. This means that the handle can be held close to the body to provide high comfort and control when combing/brushing the hair.
