Creating Possibilities

Contour pen

The Contour pen has been specially designed to enable handwriting with poor gripping ability. It lays comfortably in between the thumb and index finger.

Contour pen

The Contour is a lightweight pen, gently rounded with a narrow grip area, making it pleasant and comfortable to use.

The pen rests comfortably in the hollow of the thumb and index finger, preventing point pressure and strain on the fingers. The light fluid ink further reduces the required strength.

The Contour pen requires a minimum of strength and gripping ability
