

BetterLiving Banana Pillow

The BetterLiving Banana Pillow is designed for increased comfort when seated in a chair or wheelchair.

Ideally suited to a home care environment, the adjustable pillow contours around the waist, allowing the user to comfortably rest their arms and help alleviate tension in arms or wrist when holding a book or other item.

A side buckle allows for easy adjustment to match the individual user's size.

The pillow is filled with 100% polystyrene beads. The outer cover is made from waterproof, breathable PU fabric (35% PU and 65% polyester). Replacement covers are also available.
