# Molift Quick Raiser 1

Compact design and excellent manoeuvrability even in narrow spaces

By virtue of its compact design and low weight, Molift Quick Raiser 1 is stable and easy to manoeuvre. The unique wheel position and near-perfect weight distribution of the base provides a small turning radius with easy manoeuvrability even in narrow spaces.

The inclined straight column imitates the natural pattern of movement and fulfils the hoisting needs of users with some degree of weight-bearing capacity. Molift Quick Raiser 1 has a safe working load of 160 kg.

The extra low base, 7 cm, and narrow front, 34 cm, fits well around toilets and under most beds, chairs and wheelchairs.

**Extra low base**

The extra low base of 7 cm, and narrow front, 34 cm, fits well around toilets and under most beds, chairs and wheelchairs.

**Adjustable knee pads**

The knee pads are height adjustable and can be turned around for better fitting and to give alternative support for the legs.

**Battery indicator**

Battery indicator on the hand control showing when charging is needed.

**Unique wheel positioning**

The lightweight construction combined with the unique wheel positioning provides exceptional manoeuvrability.

<b>Molift Quick Raiser 1</b>		<b>Item no.</b>	External width of wheelbase	1200 mm
