

7 Reasons to Consider a Raizer II Lifting Chair

1. SINGLE-HANDED CARE

Designed specifically for single-handed care, the innovative lifting system secures and lifts users effortlessly, significantly minimizing the potential of injury to both the individual being lifted and the caregiver.

2. SAFETY

Equipped with safety belts connected to the backrests, the Raizer II guarantees the fallen person's sense of security and comfort through the lifting procedure (20-30 seconds).

3. UNIQUE LIFTING ABILITY

The Raizer II is specifically engineered to raise an individual weighing up to 150kg who has fallen, using its seamless and remotely operated mechanized lifting action.

4. MOBILE SOLUTION

The lightweight and portable design of the Raizer II chair (total weight 13kg) means this

mobile lifting device can be easily transported and used in a variety of settings, from private homes to healthcare facilities.

5. EASY-TO-USE

The Raizer II presents a unique and user-friendly structure, incorporating intuitive sound and light indicators that simplify the swift assembly of the device in various settings.

6. TRANSPORTATION

When disassembled, the Raizer II is transported using two bags to the location. It is easily transported from location to location or stored away.

7. EASY-TO-CLEAN DESIGN

The Raizer II surfaces promote easy cleaning and enable efficient disinfection, ensuring a high level of cleanliness and improved infection control.
