Fall Prevention Products

FallsPro is a standalone system enabling the Aged Care / Hospital sector to monitor many falls risk residents / patients at their most vulnerable over a large area facility.

It is cost effective as you do not require a monitor for every room.

FallsPro System

Features:

- *Ideal for dementia wards, surgical and medical wards.
- *Monitors separate area / wards.
- *Fully wireless – no cabling required for easy installation, configuration, operation, expansions, and upgrades.
- *Monitor up to 96 wireless bed and chair pads.
- *Individually identifies each resident bed or chair pad.
- *2-line backlit LCD display.
- *High visibility flashing LED & adjustable audible alarm.
- *Displays low battery and fault conditions.
- *Serial output for printer or RF paging.
