Reclining Wheelchair**

Netti 4U CE Plus - Tilt in Space and Reclining Wheelchair

The Netti 4U CE Plus combines economy and individuality at the highest level. The frame design and extensive range of accessories meet and often exceed user demands. Well specified as standard and highly adaptable with a range of accessories, the Netti 4U CE Plus is a flexible and multi-functional wheelchair and offers the following features as standard:

Flexible Back Solution

The Netti 4U CE Plus is equipped with a one-piece velcro back and a back cushion that can be adjusted for the user's height. Furthermore, you can choose from our complete product range of cushions, giving different levels of support for the trunk.

The Narrowest Wheelchair on the Market

The overall width of the wheelchair is only 18 cm wider than the seat width with standard wheels.

Folding Brakes

Folding brakes for easy and safe sideways and /or sling transfer.

Hygienic Cover

This Netti 4U CE Plus is supplied with hygienic Easy Care covers which are wipeable. This makes the chair well suited for cases of incontinence as well as for multiple residents in hospitals and facilities.

Seat Width Flexibility

Comfort pads and seat width extension options ensure an economic solution as well as an ideal fit for the user. The seat width can be adjusted 20 or 40 mm in or out, using the seat width extension kit.

One-Hand-Operated Durable Arm Support

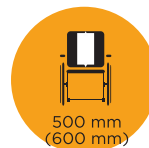

The functional designed arm support offers increased stability to the user. They are height and depth adjustable and easy to mount and dismount with one hand, making it great for sideways or sling transfer.
